SHATTER SUPPRESSION!

BECOME CAUSE WITH THE HOW TO CONFRONT AND SHATTER SUPPRESSION COURSE

The only thing wrong with this universe are suppressives who specialize in caving people in. They walk among us undetected, hiding behind masks of social veneer. And those masks are more convincing than the best special effects in a Hollywood film.

But there is a tech to shatter the facade and so reveal, in vivid detail, the true face of suppression. And that tech puts you at total cause. Because while SPs are vicious, they are also cowards. And like all creatures of darkness, they cannot stand the light of exposure.

This is the tech that makes you impervious to suppression; the tech that allows you to understand all behavior and fathom everyone you meet — the good and the bad.

Never again will you be deceived by concealed identities behind the masks — masks that suddenly become as obvious as a child's Hallowe'en costume.

Here is the most vital technology to your future as a being. Because the only thing that can ever stop you, in any part of life, is suppression.

And once you know the tech of suppression, you are impervious to the power of any suppressive. Forever.
