### ENEMIES WHO WON'T PARLEY

(Originally written on 12 November 1969 concerning  
the National Association of Mental Health UK.)

The rule about parleying is: people who won't, have some other target in mind they dare not disclose. This was true of the Russian refusal to parley with Japanese to surrender in '45, is true of N. Vietnam. Such a refusal to parley commits them to further conflict.
