CCHR FORMATION

(Written on 29 January 1969 concerning the founding
of the Citizen's Commission on Human Rights.)

You can tell any delegation that is interested in human rights that the Church of Scientology is setting up "The Church of Scientology Commission on Human Rights, Psychiatric Violations" of the UN Charter and Nuremberg Code, one in each major world area to obtain information for prosecution. This data will be obtained from the public in public hearings as well as from lawyers and medical doctors, most of whom oppose psychiatry.

England, Australia, New Zealand and the Eastern and Western US will be the first areas in which these commissions will be formed. Various civil rights groups are cooperating.
